

## Logistics Operations Management Level 3

### Programme Overview

This qualification is aimed at people who work as a senior operative/team leader or in a supervisory role in distribution and warehouse operations and who carry out a significant range of varied activities.

### Delivery Approach

The qualification will be achieved by demonstration of competence in the workplace. Achievement will be recorded via completion of a portfolio of work based evidence, completed by the candidate and validated by a qualified assessor.

### Qualification

Logistics Operations Management Level 3.

### Awarding Body

OCR.

### Participant Profile

There are no formal entry requirements but candidates need to be employed in a supervisory/senior role within a warehouse environment.

### Programme Content

This qualification is designed to be very flexible in its structure. Three mandatory units must be completed and a further six additional units must be completed, which can be selected from a variety of topics relevant to the job role and which best suit the candidates work situation and job role.

### Length of Programme

Up to 9 months flexible work based delivery.
